

DISCOVER THE UPLIFTING POWER OF SMILES

InForm Mobile enables staff to spend more time delivering genuine care.

Attracting and retaining staff is critical to senior care community success. InForm Mobile helps them address the myriad of challenges they face in the performance of their responsibilities in innovative ways. As a result, they're able to devote more time to what really matters to them. Connecting with residents on a personal level. If you really want to see the power of smiles at work, take a closer look at InForm Mobile.

TECHNOLOGY THAT DOES MORE FOR YOU

**Uniquely simplify
training and use** for
multiple systems via a
single hand-held device
through our innovative
platform design.

**Instantly distinguish
between emergent &
non-emergent calls**
with industry-first 2-way
wireless call stations.

**Conveniently schedule
on resident activities**
with our exclusive
scheduling app, so
residents are always
where they need to be.

**Easily monitor community
entry/access** with our
video doorbell system
to enhance security
for residents and staff.

CORNELL
TECHNOLOGIES

Help caregivers share their talents and their smiles

Technology can be as frustrating for caregivers as it is for residents. That's why we built InForm from the ground up to be different by design. Easy to use. Easy to gain ground on your schedule. Easy to bring smiles to everyone's faces.

Everything caregivers need in the palm of their hand

- **True, Single Point of Contact Solution** integrates nurse wander manage, EHR, video doorbell security and personal resident activity scheduling into one easy-to-use solution. Auxiliary add-ons also available.
- **Exclusive, Seamless Transitioning from App to App** saves precious seconds with every device interaction and eliminates an ongoing source of frustration for staff.

Expedite care with every call

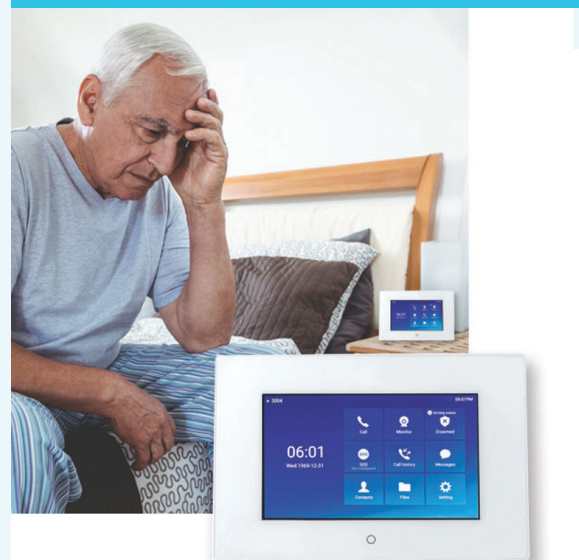

- **Staff-to-Staff Voice and Text/Chat Capability** enables staff to communicate the way that's most efficient for them to determine who can respond to the call the quickest, saving time and steps while improving outcomes.
- **Exclusive 2-Way Wireless Call Stations** offer resident-to-staff communication as calls are initiated so staff members can determine up front whether the resident needs maintenance, an aide or an RN.

Help staff build better bonds

- **Exclusive Resident Event Scheduling** capability allows staff to load events into a digital schedule, so residents don't miss events important to them and staff have convenient opportunities to get better acquainted with residents.
- **Quickly and Easily Add Events for Individuals or Groups**—from something as simple as favorite community activities to medical appointments or group outings.

Comprehensive Connectivity

Wireless Resident-to-Staff Communication

Improve staff satisfaction

Reduce costly staff turnover

Optimize staff utilization

See more smiles community-wide
