

WITH THE RIGHT TOOLS YOU & YOUR RESIDENTS WILL **ROCK**

InForm Mobile helps you measure success in dollars, cents and smiles.

Our unique activity management platform is designed from the ground up to deliver more effective senior community care. It's based on a simple formula: Happier residents plus happier staff equals a happier bottom line. Convenient, customized reports and dashboards also simplify the process of continuous improvement for management. It's enough to put a smile on everyone's face community-wide.

TECHNOLOGY THAT DOES MORE FOR YOU

Our nurse call data captures the reason for each call, conveniently justifying care leveling increases.

Simplified training and day-to-day use promote increased staff satisfaction, reducing costly staff turnover.

Innovative workflow advancements speed call response and enhance quality of care while optimizing staff utilization.

Risk mitigation solutions minimize costly consequences for residents and community ownership.

Drive operational & financial success like never before

If you think of nurse call systems as simply a sunk cost that's required by code, it's definitely time to take a closer look at what InForm Mobile can do for your residents, staff and your bottom line.

Generate revenue

- **Improve Occupancy Rates** through quicker response times and by building a stronger sense of community among residents.
- **Demonstrate the Need for Care Cost Increases** based on system documentation that includes frequency of calls, the reason for each call and the length of time to resolve each call.

Reduce operating expenses

- **System Simplicity Increases Staff Satisfaction** improving staff continuity and reducing costs and headaches associated with turnover.
- **Staff Tracking and Reporting Capabilities** facilitate continuous workflow improvement and more cost-effective staff utilization.

Mitigate risk on multiple levels

- **Avoid Costly Elopements** through the use of Wander Management solution integration.
- **Easily Improve Community Security** for residents, staff and visitors via our video doorbell solution.
- **Better Safeguard At-Risk Residents** with integrated Fall Detection that gets residents prompt help in the event of a fall and tracks incidents to identify if higher levels of care are needed.

Comprehensive Reporting

Fall Detection Integration

Elevate resident satisfaction

Improve operational efficiency

Safeguard your bottom line

Give your entire community more reasons to smile
