Take Nurse Call Capabilities to a New Level with Our Wireless Call Stations & Pendants

IA Mobile employs the very latest in wireless technology to facilitate simple and cost-effective installations & high reliability. This includes the new release of Resident-to-Staff 2-Way Voice, allowing allocation of the proper staff to resolve resident concerns. We offer both movable bedside audio/visual stations and wireless pendants with GPS locating.

Cornell offers a complete family of wired and wireless *INFORM™* Nurse Call systems to accommodate virtually any budget and level of care. Existing call stations often can be incorporated into *INFORM™* system.

INFORM™ IA Mobile • *INFORM™ IndePendant (Wireless)* • *INFORM™ Visual 4000 (Wired)*
