

Emergency Station - Pull Cord with Water Resistant Option E-104-1/E-104-1WP

Description: E-104-1/E-104-1WP stations feature satin finished stainless steel faceplates with silk-screened designations. Station is applicable for single or dual applications. E-104-1WP has a gasket making the station splash proof for use in shower applications.

Operation: Pulling the four-foot germ free, glow in the dark cord on the E-104-1 (E-104-1 WP) Emergency Station activates a call for help confirmed by red LED. To cancel the call, slide the switch to the off position.

Mounting: The satin finish stainless steel faceplate with silk-screened designations may be flush mounted on a standard outlet box with single-gang plaster ring, or surface mounted on a Wiremold 5748 or equivalent.

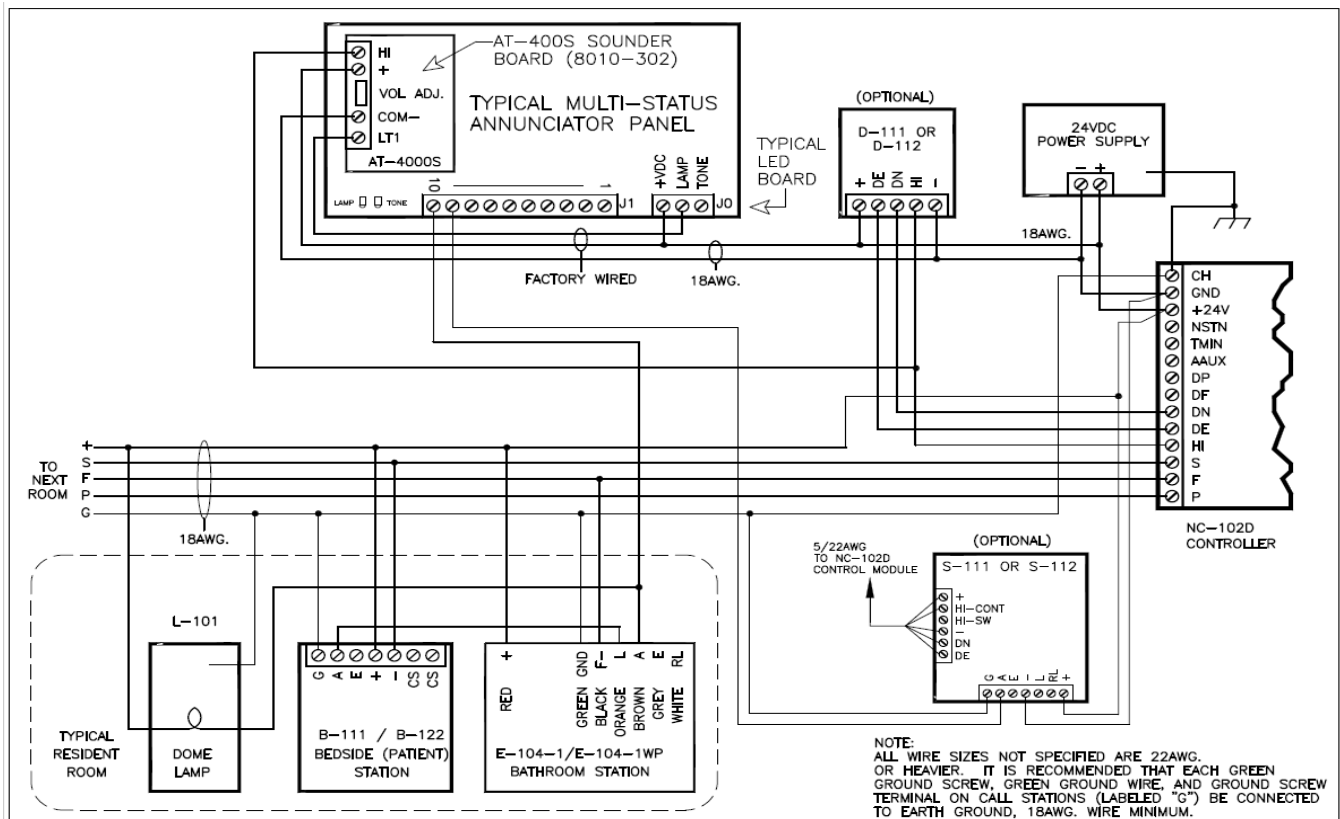

Engineering Specifications: The contractor shall furnish and install the CORNELL E-104-1 (E-104-1/WP) Emergency Stations as indicated on the plans. Faceplates shall be satin-finish stainless steel with silk-screened designations. Emergency Station activates a call for help confirmed by red LED. Calls in progress can be cancelled by moving the switch to off position. Incandescent lamps are not acceptable.

Technical Information:

- Power Requirements: 24VDC
- Operating Environment: 50-120°F Indoor Non-condensing
- Physical Faceplate Dimensions: 4½" H x 2¾" W (1 Gang)
- Mounting: Single-Gang back box with 1¾" minimum depth
