

Transmitter, Fixed Button TR – P200SE

TR-P200SE

Description: The TR-P200SE transmitter has a smart design with simple, single button activation. A LED flashes on all transmissions, including supervision, so the user is reassured the unit is operating. It comes with a belt clip that can also be converted to a belt loop. It can also be easily mounted for fixed-position signaling.

Operation: When used with Cornell Aura 2.0 System, LED flashes confirming both transmissions and alert supervision logic.

Options: Cornell's TR-P200SE Transmitter Station:

- A neck cord is standard.
- Includes a 3 Volt Lithium battery.
- Can also easily be mounted for fixed position signaling.
- UL approved.

Mounting: Neck Cord Provided.

Engineering Specifications: The installer shall furnish and provide the CORNELL TR-P200SE Fixed Button Transmitter as indicated on the plans. The Fixed Button Transmitter shall be programmed per AURA 2.0 specifications. The transmitter shall be provided with neck cord and 3 Volt Lithium battery.

Technical Information:

- Dimensions: 3" x 1.6" x 0.72"
- Weight: 1.7 oz
- Power: 3.0V Lithium
- Battery Replacement: CR2 lithium battery
- Battery Life: 3-5 years
- Operating Environment: 50-120°F Indoor Non-condensing
