

## **Smoke Detector Alarm - TR-S300E**

**Wireless Smoke Detector** Wireless Smoke Detector can be integrated with the Cornell wireless call systems.

**Description:** The TR-S300E wireless smoke detector features an onboard sounder, a smoke sensor, an LED indicator and local test capability.

**Operation:** When used with a Cornell system, this device wirelessly monitors smoke detection continually. It is self-monitoring, alerting the user when maintenance is needed or batteries are low, and automatically supervising the radio link.

**Mounting:** Mounting hardware included.

### **Technical Information:**

- Dimensions: 5.3" Diameter x 2.3"
- Power: Battery Replacement: CR123A (1Required)
- Battery Life: 3-5 years
- Operating Environment: 32-120°F Indoor Non-Condensing
- Sounder: 85db @ 3M, Temporal output
